

SAVE THE ~~M~~ WHALES

Photography: Belinda Mason-Lovering

While you read this and view this image, a man somewhere is about to throw a rope around the beam in his shed, another is attaching a hosepipe from his exhaust to the window of his car and yet another is about to turn his wheel into the path of an oncoming semi-trailer.

5 males suicide in this country every day.

Whatever the reason, it's too many.

If 5 whales beached themselves on Bondi Beach it would be front page news, broadcast all over the world, enormous money, effort and resources would be utilized in trying to save them.

**Yet we lose 5 males a day in this country
and we seem to accept that.**
